

Dividend Basket - F Series

What is a Basket?

It is an investment model that is managed by a professional portfolio manager on a discretionary basis in your brokerage account. You directly own its underlying securities and receive the dividends and/or interest paid.

Investment Strategy

The Dividend Basket is predicated on a value style of investing, which aims to highlight quality companies that may have temporarily fallen out of investor favour. At the same time, the portfolio manager will look for companies with above average dividend yields (superior to that of the S&P/TSX Composite Index). Minimizing volatility through sound diversification across industry sectors will also remain a priority for the Dividend Basket. An emphasis will be put on companies with solid balance sheets, adequate dividend coverage and a good dividend payment history. Your Investment Advisor may provide you with the complete Investment Policy Statement.
