

Unified Fixed Income Pure Active Basket - F Series

What is a Basket?

It is an investment model that is managed by a professional portfolio manager on a discretionary basis in your brokerage account. You directly own its underlying securities and receive the dividends and/or interest paid.

Investment Strategy

The fixed income investments in your portfolio are individually selected, and carefully consider interest rates to provide a solid combination between producing income and protecting your money. The selection of securities is made by the myWealth Unified Investment Committee, which identifies the best available opportunities based on the objectives and attractiveness of the strategies evaluated.
