

Canada Focus Basket

What is a Basket?

It is an investment model that is managed by a professional portfolio manager on a discretionary basis in your brokerage account. You directly own its underlying securities and receive the dividends and/or interest paid.

Investment Strategy

The manager uses a combination of both a bottom-up management approach and a top down management approach to select the best Canadian securities and to create a portfolio that is Canadian based. Your Investment Advisor may provide you with the Investment Policy Statement.

Details
