Asset Allocation Basket

NATIONAL BANK FINANCIAL WEALTH MANAGEMENT

What is a Basket?

It is an investment model that is managed by a professional portfolio manager on a discretionary basis in your brokerage account. You directly own its underlying securities and receive the dividends and/or interest paid.

Investment Strategy

This Basket invests in a variety of asset classes and seeks to optimize the risk-return relationship. The manager will likely modify his investment mix (within a specified range) in order to reap the potential advantages associated with altering market conditions. Your Investment Advisor may provide you with an Investment Policy Statement.
